**EZ ONE-SHOT™** disposable cylinder is rated to 400 psi and is guaranteed to be rated to recover R410A.

**\*50 lb. HP** deposit cylinder is also rated to 400 psi and can be used to recover R410A.

### Guidelines

- ◇ A service fee is charged when cylinders are taken for use by customer.
- ◇ Cylinder deposits are credited back to customer upon return of cylinder.
- ◇ Drums for low pressure refrigerant recovery are rated as single trip containers, therefore they are purchased outright.
- ◇ National uses its own on-site DOT approved hydrostatic testing equipment. All cylinders are shipped under vacuum. For the user's protection, a plastic shrink wrap covers the valve.
- ◇ Please read Filling Procedures and Safety Recommendations to ensure proper transfer of recovered refrigerant in to containers.
- ◇ National reserves the right to charge a cylinder cleaning fee for cylinders used as receivers or returned less than 50% full as noted below.
