

# OFN (Oxygen Free Nitrogen)

Oxygen free nitrogen is used for a variety applications from environmentally friendly condenser coil cleaning to pressure and strength testing systems before charging with expensive refrigerants.

- High purity (99.9%)
- Low moisture (<10ppm)
- Low oxygen (<10ppm)

200 bar	Fill Weight	Charge Volume	230 bar	Fill Weight	Charge Volume
10 litre	2.34 kg	1.97m <sup>3</sup>	10 litre	2.69 kg	2.26m <sup>3</sup>
20 litre	4.68 Kg	3.94m <sup>3</sup>	20 litre	5.38 Kg	4.53m <sup>3</sup>
40 litre	9.358 kg	7.89m <sup>3</sup>	40 litre	10.75 kg	9.07m <sup>3</sup>
50 litre	11.69 Kg	9.86m <sup>3</sup>	50 litre	13.44 Kg	11.34m <sup>3</sup>
